## About Us

**Netzsch Pumps & Systems** Technologies India Private Limited is a leading Manufacturer, Supplier and Trader of **Progressing Cavity Pumps, Industrial Rotary Lobe Pumps, Macerators and Grinders** in India. The company started its operation in 1994 as a wholly owned subsidiary of Netzsch Pumps & Systems Group, Bavarian town of Selb, Germany. In **2005** the Netzsch Pumps & Systems group founded its Indian subsidiary, opened an assembly plant at Chennai for Progressing Cavity pumps which operated for 4 years.

Increasing demand soon offered the opportunity for further expansion in India. In 2009 the company bought the site in the vicinity of Goa in which the new production plant is being commissioned. we opened our Manufacturing facility in the Verna Industrial Estate in Goa, India on the 21st Oct 2011.

This demand serves a path to the major investment of Netzsch Pumps & Systems in India to make our technologies locally available and participate in the growth of the country's economy. The company in India now enjoys a market share of about 25% with a compounded annual growth rate of 32% since its foundation. The company employs 85 people on an all India basis and is located with Sales and Service centers across 8 cities in India.
